

# Arts & Culture Priorities

The Arts & Culture Action Team has identified three main priority items to move ahead with as recommended by the CAC report, and building on our local competitive advantages and strengths. This team started with a list of 28 and through a set criteria process, discussion, feedback and alignment with the CAC recommendations, reduced it to three, with the expectation that more actions may arise as outputs of the Cultural Plan. It is anticipated that following the completion of the Cultural Plan that the list of priorities below may be expanded.
